Title and Key Word Index

(Book reviews are listed under "Books")

A reversible model of acute lung injury based on ozone exposure. D. J. P. Bassett, E. Bowen-Kelly, E. L. Brewster, C. L. Elbon, S. S. Reichenbaugh, T. Bunton, J. S. Kerr 355
Acetylene 47
Acute pulmonary response to cotton bract extract in monkeys: lung function and effects of mediator modifying compounds. T. J. Witek, Jr., R. H. Gundel, C. D. Wegner, E. N. Schachter, M. G. Buck 25
Airway inflammation 1
Airway inflammation and peribronchiolar attachments in the lungs of nonsmokers, current and ex-smokers. J. L. Wright, J. E. Hobson, B. Wiggs, P. D. Pare, J. C. Hogg 277
Airway smooth muscle 131
Airways 75, 277
Allergic alveolitis 113, 189
Alloantibodies 97
Alloantibodies, autoantibodies, and immune complexes in patients with lung cancer. M. K. Gorny, M. Lawniczak, R. Jenek, A. Slowik-Gabryelska, E. Kaczmarek, J. Zeromski 97
Alveoli 75, 85
Alveoli, function 33
Angiotensin-converting enzyme 209, 327
Antiasthma drugs 1
Antibodies 97, 113, 189
Antibodies, antineuronal 243
Arterial blood gases 65, 287
Ascorbate 149
Ascorbic acid neutralizes reactive oxidants released by hyperactive phagocytes from cigarette smokers. R. Anderson, A. J. Theron, G. J. Ras 149
Asthma 317
Asthma pathology 1
Autoantibodies 97

Beta agonist 117, 257
Beta-adrenergic response 177
Bleomycin 161
Blood flow 47
Books
—Drug Therapy for Asthma. Edited by John W. Jenne and Shirley Murphy (reviewed by M. H. Williams, Jr.) 125
—Hypoxia, Polycythemia, and Chronic Mountain Sickness. By Robert M. Winslow and Carlos Monge (reviewed by M. H. Williams, Jr.) 253
—Pleural Effusion. By Adrian O. Vladutiu (reviewed by M. H. Williams, Jr.) 125
—Pulmonary Endothelium in Health and Disease. Edited by U. S. Ryan (reviewed by M. H. Williams, Jr.) 126
—Pulmonary Nuclear Medicine. Edited by Merle K. Loken (reviewed by M. Zelefsky) 187
—Pulmonary Pathology. Edited by David H. Dail and Samuel P. Hammer (reviewed by M. H. Williams, Jr.) 372
—Respiratory Function of the Upper Airway. Edited by Oommen P. Mathew and Guiseppe Sant'Ambrogio (reviewed by M. H. Williams, Jr.) 315
—Textbook of Respiratory Medicine. Edited by John F. Murray and Jay Nadel (reviewed by M. H. Williams, Jr.) 371
Brochial asthma 269
Bronchoalveolar lavage fluid 33, 75, 85, 189, 293
Byssinosis 25, 131

Calcium antagonist 177
Central fatigue of the rabbit diaphragm. T. K. Aldrich 233
Changes in phospholipids in bronchoalveolar lavage fluid of patients with interstitial lung diseases. Y. Honda, K. Tsunematsu, A. Suzuki, T. Akino 293
Changes in the levels of bioactive components of cotton bracts accompanying senescence. J. A. Russell, J. J. Fischer, R. A. Rolstad, M. S. Rohrbach 131
Chemotaxis 317
Chest wall mechanics 141
Chronic obstructive lung disease (COPD) 287
Cigarette smokers 149
Circulating antineuronal antibodies in small cell lung cancer. W. Popp, M. Drlicek, W. Grisold, H. Zwick 243
Collagen metabolism 347
Collagen metabolism in experimental lung silicosis. A trimodal behavior of collagenolysis. C. Ramos, M. Montaño, G. González, F. Vadillo, M. Selman 347
Collagenolysis 347
Comparison of inflammatory cells in bronchoalveolar fluid with those in the lumen and tissue peripheral airways and alveolar airspace. J. L. Wright, J. Hobson, B. R. Wiggs, J. C. Hogg 75
Cotton bract 1, 131
Cotton bract extract 25
Coughing 287
Cyanosis 287
Cyclic AMP 221

Diaphragm 233
Dibutyryl cyclic adenosine monophosphate inhibits pulmonary vasoconstriction. A. Sakai, N. F. Voelkel 221
Diltiazem 177
Dipalmitoyl phosphatidylcholine 293

Editorial. M. H. Williams, Jr. 116
Editorial: When does an adaptation become a disease? M. H. Williams, Jr. 255
Effect of body weight on the volume of distribution of theophylline. A. Rizzo, A. Mirabella, A. Bonanno 269
Effect of the calcium antagonist, diltiazem, on beta-agonist-induced reduction of beta-adrenergic responsiveness in the guinea pig lung. F. Taki, K. Hayashi, S. Sugiyama, T. Satake, T. Ozawa 177
Effects of vitamin E deficiency on bleomycin-induced pulmonary fibrosis in the hamster. H. Nakamura, S. Sato, K. Takahashi 161
Elastic properties of the excised lungs of NZB/W mice and their correlation with histopathologic changes. D. Struhar, R. Harbeck, R. Chernjack 107
Emphysema 161, 277
Experimental silicosis 347

Fatigue 233
Fatty acids 85
Fenoterol 257
Fibrogenesis 347

Guinea pig 33, 303

Hamster 161
Hemolysis 85
Humidifier lung 113
Humidifier lung and humidifier fever. X. Baur, J. Behr, M. Dewair, W. Ehret, G. Fruhmann, C. Vogelmeier, W. Weiss, V. Zinkernagel 113
Humoral immunity 97
Hyperoxia 209
Hypersensitivity pneumonitis: correlation of cellular and immunologic changes with clinical phases of disease. H. Y. Reynolds 189
Hypoxemia 287
Hypoxia 209, 221

Immunologic reactions 113
Immunology 189
Increased neutrophil leukocyte chemotaxis induced by release of a serum factor in toluene-diisocyanate (TDI) asthma. M. Valentino, M. Governa, R. Fiorini 317
Inflammation 277
Inflammatory cells 355
Influence of a (beta)-adrenergic agonist on septic shock-induced alterations of phosphatidylcholine metabolism in rat lung. P. v. Wichert, B. Muller, W. Meyer-Ingold 257
Interstitial lung disease 287, 293
Leukotoxin 327
Leukotriene C_4 221
Linoleate 327
Loaded breathing 233
Localization of transglutaminase activity in type II epithelial cell cultures and elevation of enzyme activity in lungs of rats instilled with quartz. A. L. Hind, C. G. Curtis, J. Atkins, G. M. Powell, R. J. Richards 339
Lumen 75
Luminal-enhanced chemiluminescence 149
Lung cancer 97
Lung cancer, small cell 243
Lung compliance 65
Lung elasticity 107
Lung fibrosis 161
Lung injury 209
Lung MK 351A uptake after hypoxia adaptation and subsequent hyperoxia exposure. R. M. Jackson, S. A. Hyung, S. Oparil 209
Lung, quartz instilled 339
Lung volume 303

Macromolecular leakage 1
Macrophages 33, 355
Macrophages, alveolar 189
Maximal expiratory flow–recoil pressure curve 303
Maximal expiratory flow in the guinea pig. Y.-L. Lai 303
Mediators 1, 25
Mice, NZB/W 107
Microvascular permeability 1
Mucosal permeability 1

Neutrophil leukocytes 317
Neutrophil-derived epoxide, 9,10-epoxy-12-octadecenoate, induces pulmonary edema. J. Hu, F. Taki, S. Sugiyama, J. Asai, Y. Izawa, T. Satake, T. Ozawa 327
Neutrophils 75, 327, 355

Obesity 269
Oxidants, reactive 149

PaO_2 65, 287
PaO_2 increases with coughing in patients with chronic lung disease. W. Martinez, J. Sandoval, R. Perez-Padilla, R. Maxwell, M. Seoane, E. Lupi-Herrera 287
Paraneoplasy 243
Peribronchiolar alveolar attachments 277
Phagocytes 149
Phosphatidylcholine metabolism 257
Phospholipase 177
Phospholipids 177, 293
Plasma exudation and asthma. C. G. A. Persson 1
Platelets 131
Postmortem bronchoconstriction 303
Precipitins 189
Predictive equations 47
Pressure-volume relationship 107, 161, 303
Pulmonary capillary blood flow 47

Pulmonary edema 327
Pulmonary function 25
Pulmonary surfactant 293
Pulmonary tissue volume 47
Pulmonary tissue volume and blood flow as functions of body surface area and age. M. F. Petrini, M. S. Phillips, D. A. Walsh 47
Pulmonary vascular reactivity 221

Quartz 339

Rebreathing 47
Respiratory acidosis 233
Respiratory drive 233
Responsiveness of guinea pig alveolar cells. F. K. Kessler, B. J. Fisher, D. E. Bechard, A. A. Fowler, R. A. Carchman 33
Rheumatoid arthritis 141
Rib cage, stiffness 141

Senescence 131
Sepsis 257
Shock 257
Silicosis 347
Smoking 277
Spontaneous hemolytic activity of rat alveolar lining material. B. Quesneau-Guilmont, J. Masliah, L. G. Alcindor, J. Bignon, C. R. Lambre 85
Stiffness of the rib cage in a subset of rheumatoid patients. R. Begin, V. Radoux, A. Cantin, H. A. Menard 141
Surfactant 85
Surfactant phospholipids 65
Surfactant replacement therapy in surfactant-deficient rabbits: early effects on lung function and biochemical aspects. S. B. Oetomo, D.-J. Reijngoud, J. J. Ennema, A. Okken, Ch. R. H. Wildevuur 65

T-lymphocyte subtypes 189
Theophylline kinetics 269
Toluene-diisocyanate 317
Total lung capacity 107
Transglutaminase 339
Type II cells 339

Vascular permeability 355
Ventilator, weaning 65
Vitamin E 161
Volume of distribution 269
